Salsa4funIndia was born on 5th May 2007, owned and operated by Kelsang Dolma (Kash). Salsa4funIndia was created to spread the realized essence of Latin form of dance. It offers different classes during the week and weekend ranging from Cuban Salsa, Casino de rueda, La salsa and social dancing. While teaching a person to acquire the Latin form of dancing, the company also grooms the participants in behavioral ethics and social respectability.

At Salsa4fun, keeping in mind the authentic contribution and also the modern styling much appreciated around the world for performance and stage, we teach Cuban style of Salsa (Casino) with a modern flair, *Rueda de Casino and LA style of Salsa.*

Kelsang Dolma (kash)

Like any other normal people, Kash spent many of her years doing regular jobs, switching from one to another trying to figure out the goal and purpose of her life but in vain. She was a bright student in school, active on stage and had been always connected with Latin music since she was 15 but she never realized Salsa is her source of joy and this is what she would pursue her career with. Giving up job and luxury that came along was the price she paid but she is a much happier and optimistic person now. She gets to travel around (which is her 2nd passion next to Salsa) to learn more on the dance form and pass on the knowledge further to her students. She does not claim to know it all, she believes that everyday is learning in the class along with her students but she certainly does brag that they are fed the right knowledge.

Kash loves to talk about salsa anytime n anywhere and for sure loves to go salsa dancing. One salsa night on Saturdays that she had to wait for entire week wasn't enough, so she decided to introduce Salsa social in between the week for all others who are Salsa freaks like her.
